

In a 21st Century global economy, every enterprise needs strategically decisive, mentally tenacious leaders and individual contributors who understand how to accurately prioritize and execute strategies that yield benefits which are aligned with organizational objectives.

I am a strategically focused Program and Project Management Professional bridging the technical depth of Engineering with industry recognized Program and Project Management methodologies, Six Sigma tools and Lean strategies to develop and deliver products and services to diverse businesses. With an added depth of experience in New Product Development Engineering, Reliability Engineering, and Quality Engineering, I understand how to leverage the power of data and analytics to properly assess, substantiate and deliver strategies for maximum return as aligned with enterprise objectives.

Following is a synopsis of what I will offer the organization:

Transformational Leadership: I have more than 20 years of experience in some of the most challenging, competitive, and complex Corporations in the United States and abroad. I have successfully demonstrated the ability to pierce through dynamic and political landscapes to transform systems that deliver results aligned with organizational objects.

Program Management: I am an experienced Program Manager who develops and executes strategies that deliver benefits and return value to the organization. I decisively evaluate and accurately identify and implement value-added initiatives that align with enterprise-level strategic objectives.

Project Management: As a Project Manager, I communicate effectively across varying business levels, appropriately leverage and allocate resources, and delegate responsibilities ensuring optimized productivity and milestone timeliness while maintaining stakeholder engagement.

Business Acumen: I am a high-energy and engaged decision-maker with a successful record of improving financial results via strategic development, data analysis, quality improvement, process improvement, and program/project management & implementation.

Complex Problem Solving: I have the demonstrated ability to leverage proven problem-solving tools, including but not limited to Six Sigma and Shainin methodologies, to successfully identify the root cause of business challenges, both technical and non-technical.

As you consider your options for the selection of independent contractors or employees, please do not hesitate to contact me at **708-646-6209**, or via email at vaughn@vaughnharrison.com for further details about the solutions I can deliver.

Regards,

Regards,
